STEAMERS ON THE YANGTZE.

The number of steamers now engaged in
the navigation of the Yangtze and its
tributaries stands at 47, their total tonnage
aggregating 54,704 tons. Classified accord-
ing to line and nationality they are as
follows:—Hankow-Shanghai line: Great
Britain 8 (16,920 tons), Japan 6 (7,564
tons), France 6 (6,631 tons), China 4 (6,500
tons), Germany 5 (6,743 tons). Total 29
vessels, tonnage 43,167 tons. Hankow-
Ichang line: Great Britain 2 (2,618 tons),
Japan 2 (2,147 tons), China 3 (1,760 tons),
Total 7 vessels, tonnage 6,531 tons. Han-
chow-Singapore line: Japan 3 (1,064 tons),
Great Britain 3 (1,034 tons), China 5 (535
tons). Total 10 vessels, tonnage 4,295
tons. Kiang-Nanchang line: Great
Britain 1 (811 tons). Besides there are 65
steamships of smaller type which ply
between Soochow or Fongchow and Yang-
chow or Tsingkingpo via Chinkiang. The
N. Y. K. and C. N. K. direct line service
between Hankow and Osaka and Kobe is
fortnightly calling at Shanghai.—"Japan
Times."

ELOPEMENT CHASE.

Father Pursues Daughter for
350 Miles.

New York.—After a thrilling pursuit by
her father of 350 miles through Georgia,
South Carolina and North Carolina, Miss
Julia Jackson Christian, the only living
grand-daughter of Stonewall Jackson, the
famous Confederate General, has been mar-
ried to Mr. Randolph Preston, a member of
the North Carolina Legislature.

During the chase the bride's father was
on a train just twenty miles behind his
daughter. He was, indeed, in the second
section of the same fast train that carried
the young lady. The father, who is a rail-
road official, lives at Atlanta, and his
daughter stayed with her grandmother at
Salisbury. She was visiting her father,
however, when she sent a telegram to his
office telling him that she was going to
Salisbury.

The father suspected his daughter's
intention and started in pursuit. The
girl telegraphed to her lover to meet her
at Charlotte, and he telegraphed to a
friend at Salisbury to engage a clergyman.
But a bull-dog seized some of his friend's
clothing and caused him to seek refuge
up a tree, only escaping in time to
complete the arrangements.

The couple were married at two o'clock
on Friday morning, and when the bride's
father reached Charlotte he found that he
was too late and abandoned the chase.

TO GAIN THE BUOYANCY OF
HEALTH.

When you find convalescence slow and
tedious—when it seems to take you a long
time to regain your strength and the buoy-
ant feeling of health—take Hall's Cocoa
Wine and hasten your recovery. This
marvellous restorative is the surest, safest
aid to health. It nourishes and sustains
the weakened body, renews and invigorates
the blood, steadies and tones the ailing
nerves. Medical men everywhere com-
mend Hall's Cocoa Wine in preference to
the usual alcoholic stimulants or nauseous
acid tonics.

SAINT-RAPHAEL

TONIC, RESTORATIVE, DIGESTIVE WINE
Very palatable.

Known throughout the world and prescribed in all cases of
Anemia, Debility and Convalescence, to young women, children
and the aged, invaluable in hot climates.

DOSE: One wine-glass after the two principal meals.
Each bottle of genuine VIN SAINT-RAPHAEL bears, in addition
to the registered trade-mark:

(1) THE WARRANTY STAMP OF THE UNION DES FABRICANTS.
(2) A METAL SEAL advertising CLETEAS.

CLETEAS is a MELISSA and MINT cordial
which surpasses all others by its
purity and faultless preparation. To be taken on a lump of sugar.

HONGKONG, MONDAY, SEPTEMBER 16, 1907.

HEALTH OF THE COLONY.

The information in the article we published on Friday relating to the efforts of the better class Chinese to inform their more ignorant countrymen of the true value of sanitary regulations no doubt came as a surprise to many readers. In a hazy kind of way they were aware, no doubt, that some of the leading Chinese gentry were taking steps in this direction but it may safely be said that the majority of the residents of the Colony had no idea that the campaign against uncleanness was being carried on so vigorously. That the work being done is of great value is self-evident. The difficulty in getting the Chinese to co-operate in the work of rendering the health of the Colony better is caused by ignorance and the distrust of the foreigner which is almost an article of faith with the lower class Chinese. In parenthesis it may be remarked that this distrust is scarcely to be wondered at. Consciously or unconsciously the local foreigner arrogates to himself a position apart from the great bulk of the people among whom he lives. The correctness or otherwise of this attitude it is not our purpose to discuss now, although we venture the prediction that in a few years it will become a very important subject for consideration. It is the fact that we have to concern ourselves with at present. And the fact is that we do not understand the Chinese and they do not understand us. There is a deep gulf fixed between the West and East, and even we, to whose obvious interest it is to bridge that gulf, make little or no effort to that end. We conceive that we have nothing to learn from the Chinese still we do not conceive it to be our duty to convey our knowledge to the people by whom we are surrounded. The attitude that we take up may be expressed thus: we know what is right and necessary; we say to the Chinese "This is right and necessary. Do it or we will punish you." That what we know to be right and necessary might seem to the Chinese neither righteous nor essential does not occur to us, or if it does we wave it aside with an impatient comment on the obtuseness of the Oriental. This is a fatuously short-sighted policy to adopt. In some matters the Chinese of Hongkong may be considered to be the children and the foreign community the parents. No sane parent would say to a child of tender age, "You must not lie. If you lie I will whip you." Rather would he gradually unfold to the young mind the evils that follow lying and the necessity for maintaining the self-respect of others and oneself by adhering to the truth at whatever cost. When confronted with the beliefs and prejudices of centuries held by a people who cherish time-honoured beliefs and prejudices more than any other race on the face of the globe, we should pave the way to improvement with the utmost deliberation. It must be frankly acknowledged that

this is precisely what we have not done. Now the question very properly arises should the entire expense of educating (we particularly emphasize the word) the lower class Chinese in regard to sanitation fall upon the shoulders of a few enlightened and public-spirited Chinese gentlemen? As was explained in our article on Friday the Chinese dispensaries which have been opened in various parts of the city receive no subsidy from the Government and the lecturer who was also referred to is paid by the Chinese who realise the imperative importance of a general understanding of the truths contained in what has been happily styled the "Gospel of Cleanliness." We do not for one moment forget the immense sums of money spent on sanitation in the Colony, but we take the view that the physical welfare of the Chinese is a matter of concern to the foreign as well as the native section of the population and that sanitary education should not be left in private hands. And, in view of the philanthropic character of the Chinese dispensaries we consider that they, too, should be supported, in some measure, by Government funds. The indirect advantages of a better bill of health are participated in by every resident of the Colony whatever race he may happen to belong to, and it is only common justice that everyone should contribute to any and every means which may bring about that consummation. This seems to us a matter of great public importance and one upon which there should be some prompt official pronouncement.

If there is any truth in the announcement made by the London "Spectator" that Mr. Theodore Roosevelt will accept the position of Pro-Consul of the Philippines there should be no dearth of news from Manila after the next American Presidential election. Mr. Roosevelt is essentially a "hunter." When he turns his hand to anything as a general rule things begin to happen. His energy is great and he loves difficult problems for sheer love of something to combat and overcome. This strenuousness has had to be restrained to some extent while Mr. Roosevelt has occupied the Presidential chair. That the restraint has not succeeded in preventing him from making his administration something to be admired and remembered is a tribute to his ability to break through barriers of red-tape and precedent which would have daunted a less determined man. As Pro-Consul of the Philippines Mr. Roosevelt would be in his element. The situation bristles with difficulties, external and internal. In America the Imperial idea has not as yet had time to gain a hold upon the people. Judging from the tone adopted by many of the American papers there is a large section of the public which would like to see the Archipelago got rid of on any honourable terms. On the other hand there is a natural disinclination to acknowledge defeat and to abandon a position in the Pacific which will probably become increasingly valuable. That Mr. Roosevelt is firmly of opinion that the Islands should be retained is well known. Quite possibly he believes that a strong and capable administrator may be able to so change conditions in the Philippines that the American nation will realise the value and importance of the possession which the Filipinos will awaken to a consciousness that their aspirations towards independence will not spoil from keeping. Mr. Roosevelt is decidedly the man to make a success of the undertaking if success is possible. We hope that the rumour proves to be based on truth, not only for the sake of the Americans who have interests in the Philippines, but in the interests of the Filipinos themselves.

A telegram from New York dated September 12 says:—A fire has broken out in the bunkers of the United States battleship Indiana.

A SHILLING SAVED REPRESENTS TEN EARNED.
The average man does not save to exceed ten per cent. of his earnings. He must spend nine shillings in living expenses for every one saved. Sometimes a few pence properly invested, like buying seeds for his garden, will save several times the amount later on. "It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but little and a bottle of it in the house often saves a large doctor's bill. For sale by all chemists and grocers.

LOCAL AND COAST NEWS.

The auction advertised to take place at 29 Dock Villas, Kowloon, has been cancelled.

There is a report that Prince Chun will be ordered to proceed abroad to study the political system of foreign powers.

Owing to the recent bad weather the sailing of the s.s. Nicomedia has been postponed until to-morrow, Tuesday, the 17th Sept., 1907, at noon.

The Russian and the Japanese Ministers in Peking have notified the Waiwupu of the intention of their Governments to establish consulates in Tientsin.

Yuan Shih-kai has proposed ten items of his views on constitutional government but the same will be presented to the Throne after consultation with Chang Chih-tung.

The Grand Council and the Government Council have jointly established two Bureaus, one to deal with the reforms already decided and another to deal with the proposed reforms to be decided.

Messrs Chiang and Peng, reports a Tientsin exchange, have provided the sum of one million two hundred thousand taels to serve as capital for the proposed tramway system in Peking. The Board of Posts and Communications has, it is said, signified its approval of the scheme.

The Viceroy of Yunkui provinces has recommended that Tsen Chun-huan be reappointed the Viceroy at Canton, saying that the affairs in the province of Kwangtung are very important and without the abilities of Tsen Chun-huan it is difficult to deal with them.

Fengtai (Chihli), says the "Peking and Tientsin Times," is the happy possessor of the smallest club in the world. Its membership numbers four, two of whom are dead. Every possible luxury, billiard-room, library, etc., is at the disposal of the members of this tiny establishment. One of the "dead" members has since written to expostulate. He says that the report of his death is greatly exaggerated.

New Rickshas.
It is said that an order has been placed for 200 pairs of rubber-tired rickshas by a local firm. This is taken to be indicative of a coming change in these vehicles and few will not welcome the tidy move.

SOCIAL AND PERSONAL.

Mr. Taft is scheduled to sail for Japan to-day from America.

On Wednesday afternoon the Hon. Mr. W. Chatham, C.M.G., Director of Public Works, is to be invested with the Compendium of the Order of St. Michael and St. George by His Excellency the Governor at Mountain Lodge. A small party has been invited to the ceremony.

Sir Henry Pitman, senior consulting physician of St. George's Hospital, has celebrated his ninety-ninth birthday. Dr. Bayard, of St. John, New Brunswick, has, at the age of ninety-three, received the degree of LL.D. from Edinburgh University. He took his M.D. there in 1837.

THE SWATOW REBEL.

Application for Habeas Corpus.
The Hon. Dr. Ho Kai, C.M.G., applied for a writ of Habeas Corpus in the case of Ka Shing, whose extradition is sought by the Chinese Authorities.

The defence raised at the Magistracy was that the defendant was "wanted" for having taken part in a political rising at Swatow, and not for armed robbery as alleged.

The Magistrate (Mr. F. A. Hazell) committed the defendant to gaol pending the pleasure of the Governor.

Mr. A. G. Wise (Pulse Judge) granted a rule nisi on the application of the Hon. Dr. Ho Kai, returnable in five weeks.

FALSE PRETENCES.

More Impersonation.
A well-dressed Chinaman was charged at the Magistracy this morning with obtaining \$223 by false pretences. According to the evidence of the prosecution the accused went to a house and said that he was second clerk in the Crown Solicitor's office and asked the lady of the house if she desired her son to get a position in that office as office boy, at \$10 per month; if so, he could arrange to give her son such a chance but could not get \$30, so offered \$25. This was accepted and the accused left.

He then went to another house and this time said he was a Sanitary Inspector. Unless \$200 were given to him, he said, he would prosecute the woman under the Building and Cleanliness Ordinance. This time he secured his ask, but Inspector Noonan, in the person of Inspector McHardy, was on his track and he was haled before Mr. Hazell this morning and sent to gaol for six weeks. He appeared to be a well-educated man and sported a gold watch and chain and several finger rings.

SEEDS OF REBELLION.

Fertile Soil in South China.

It appears that Sik Leung, Viceroy of Wannan and Kwachow, has felt it incumbent on him to make a further urgent representation to the Throne in the form of a memorial. In his view the one man to put down rebellion and restore order in Kwangtung is Shum Chun Hien.

That the recent appalling tragedy in Yanchow is—in an ultimate analysis of causes—due indirectly, if not directly to misgovernment, many well-informed persons will be willing to allow. That the relief from some illa which the province suffers would begin with the administration of a strong viceroy is an article of faith with many who have the means of seeing far and the wisdom to discern clearly. But that Shum will ever again come to Kwangtung as Viceroy may well be doubted. He abandoned the situation at the critical moment, and whatever his previous record, which includes the highest tests of patriotism and loyalty, and reveals Shum as according with one of the best types of rulers, it is made manifest that his place is not the Viceroyalty of the Southern provinces.

Meantime disaffection continues and extends. The practice of disbanding soldiery without regard to the means they may have with which to travel homewards or of subsistence at a distance from home, is as dangerous as it is barbarous. When it is remembered that the soldiers in China are often drawn from the class which our newspapers are wont to describe in the phrase, "having no visible means of subsistence," it will be readily seen that the peril is enhanced. Given large numbers of these persons whose tendency to become roving bandits is aggravated by the necessity laid on them of finding the means to exist when the poor peasantry and industrial workers around them are subsisting on the extreme verge of starvation, and the factors in an environment that bodes mischief to the law-abiding are sufficiently manifest.

Add to all this the secret societies whose emissaries are ever working on the poverty and disaffection of the masses, fusing, in the conditions that decades and centuries of inept and futile rule and control have brought to pass, soil for the seed of turbulence and revolution. In parts of this province, as in all others, things seem tending to upheaval. The Chinese know something of the art and advantage of combining to effect their purposes whether good or bad. Nuclei of a certain strength are formed readily. Thus far the leaders who are to combine the forces of disaffection have not shown themselves and the one hope of maintaining the Empire in a course of reform through education, western impact, and the movement of the new time, lies in preventing grand combinations of anti-dynastic forces under the leaders capable of uniting in one purpose and one effort the scattered members of revolt.

It is suggestive to note that the Viceroy Chang Chih Tung and Tuan Fang have memorialised recently concerning the rebel leader most to be feared, Sun Yat Sen. They have learned, they aver, that Sun has now an arsenal establishment where the manufacture of munitions of war for the overthrow of China is carried on regularly on an extensive scale. Further information has reached them that Sun is assembling an army for the invasion of China, that its strength will not be less than several tens of thousands trained and accounted, to seize on the Empire.

Geographical details are wanting to the statements concerning Sun, which are however with the assurance of the two Viceroys that they and those who stand with them in all loyalty and obedience to the Throne are more than adequate to meet the utmost strength that Sun can bring against his country and the Emperor. It is the old time patriots' assertion and it will probably find high favour in Peking.

Possibly the Viceroys' and other representatives of loyalty protest too much. Time only will show where China stands and at any moment there may be happenings which will reveal an unsuspected strength in the forces of lawlessness to the wonder alike of friends and of those who have not concerned themselves in the recent conditions of the Empire.

For a copy of the first edition of Bayard's "Pilgrim's Progress" (1697), perfect except that the frontispiece is missing, £350 has been paid by Mr. Quinzel.

HONGKONG COLLEGE OF MEDICINE.

A combined meeting of the General Council and the students of the Hongkong College of Medicine will be held in the Legislative Council Chamber on Wednesday, 18th inst., at 4 p.m., to elect a Rector.

His Excellency the Governor, Sir F. J. D. Lugard will preside.

The Hon. Dr. Ho Kai, C.M.G., has given notice that he will re-nominate the Hon. Mr. F. H. May, C.M.G., the retiring Rector.

THE TRUNK TRAGEDY.

Witnesses go to Manila.
Some time ago we published a telegram from our Chefoo correspondent saying that Adsett, the alleged murderer of Gertrude Dayton, had been taken from Chefoo to the U. S. cruiser Galveston to be shipped to Manila. The Galveston ought to be at Manila very shortly, if she is not there already, and no doubt there will be no difficulty about having Adsett transferred to Hongkong.

Extradition proceedings will have to be instituted in proper form, and with a view to having all the necessary evidence of identification available the witnesses capable of recognising the man left here for Manila to-day, in company with police officers, who will take charge of Adsett and bring him back to Hongkong if the American authorities decide to hand him over.

The party consists of Sergeant Sullivan and Police Constable Perkins, of the police, and Messrs Osberry and Sundersen, from the Hongkong Hotel. The latter two are to identify the suspect.

THE NEW VICEROY.

To be Entertained by the Governor.
Chan Jen Chun, the new Viceroy of the Two Kwang, has left Shanghai and is expected here to-morrow.

In the telegram published in another column it is announced that His Excellency the Viceroy intends to call on Sir Frederick Lugard.

We understand that the Governor is inviting the Viceroy to tiffin to-morrow when the Consular representatives and a number of leading local residents are to be asked to meet him.

Just before going to press we learnt that the agents of the China Merchants' Company do not expect the steamer to arrive until Wednesday afternoon.

PARSEE-PRESIDENCY CRICKET MATCH.

Mr. S. D. Setna received a telegram from Bombay on Saturday to say that the Parsee-Presidency return cricket match resulted in a victory for the Parsees by one innings and 23 runs.

ANOTHER TYPHOON.
The U.S. Consul-General has received the following from the Manila Observatory: "September 15, 1907. 3 p.m. Typhoon between 133 and 136 long, is about 15 or 16 lat., moving apparently North West."

CHINESE GUNBOAT LOST.
An old Chinese gunboat on the way to Haiphong, was lost outside of Hoihow a few days ago.

It is feared that Capt. Merlees, brother of Capt. Merlees of the s.s. Hanoi, has been drowned. Several of the gunboat's crew were picked up.

A HEAVY STORM.
Tremendous Downpour.
Following upon the typhoon came tremendous downpours of rain, and last night there seemed to be a second deluge in process. Nullahs could not contain the water and great damage was done to several, especially one near Kennedy Road which broke away and allowed the roaring torrent to rush considerable rock and earth away.

Extraordinary thunder storms kept most residents awake last night, there being continuous thunder for almost an hour.

The Observatory gives the rainfall for the 24 hours ended 10 a.m. this morning at 5.55 inches.

At the Botanic Gardens the registration from Saturday at 10 a.m. to Monday at 10 a.m. was 9.91 inches.

DAMAGE AT GAP ROCK.
Difficulty in Keeping the Light Going.
The German steamer Triumph received the following message from Gap Rock while passing yesterday: "Eight lenses and three windows broken. Cannot keep the light going."

Since then the Shanghai passed during the night and the light was going and seemed to be in good order.

The Stanley left for Gap Rock early this morning to ascertain the extent of the damage and render any assistance possible.

Owing to the dislocation of the cable service, communication with Gap Rock can only be had by means of runners. It is nearly time something was done to restore immediate communication with Hongkong.

BY TELEGRAPH.

THE LUSITANIA.

Splendid Maiden Voyage.

(Exclusive Service, supplied by Reuters, via Bombay).

LONDON, September 14.

The leviathan steamer Lusitania arrived at New York five days 54 minutes after leaving England.

She was twice delayed by fog, but averaged a speed of 23.1 knots per hour, thus beating all westward maiden voyage records.

The average speed of the Lusitania is below the records made by the German steamers Deutschland and Kronprinz Wilhelm.

(Reuters Service.)

LONDON, September 13.

An unprecedented amount of interest is being taken in the voyage of the Lusitania, on both sides of the Atlantic; scores of Marconigrams are published daily showing the steamer's progress.

It is expected that the Queenstown record will be smashed.

Extraordinary preparations to welcome the arrival are being made in New York.

[The Lusitania, the largest and fastest passenger steamship afloat, on her trial trip around Ireland with the Cunard Line directors and a distinguished company of statesmen, peers and railway magnates, made 25½ knots for some distance. Her engines are of 68,000 h.p., which is 28,000 h.p. more than any other passenger steamship possesses. Her gross tonnage, 32,600, is 7,000 tons in advance of her nearest rival in size. In time of war the vessel will be at the disposal of the Admiralty, and will be fitted with twelve 6-in. guns.—Ed., C.M.]

ADSETTS.

In Court at Manila.

(From Our Correspondent.)

MANILA, Sept. 16.

Adsetts appeared in Court here this morning on the charge of murder.

He was, as a pauper, assigned Counsel.

The prosecuting Attorney said he expected detectives and papers by the Rubi.

Further hearing of the case was set for two o'clock on Tuesday.

Extradition is expected.

Adsetts looks very haggard.

A BIG STEAMER.

Built in Japan.

(From Our Correspondent.)

SHANGHAI, September 16.

The steamer Tienyomaru was launched at Nagasaki on Saturday. She is

18,000 tons, and is the largest vessel built in Japan.

THE CANTON VICEROY.

Left Shanghai.

(Chinese Mail's Service.)

SHANGHAI, September 15.

His Excellency Chang Jen Chun left here early in the morning to-day (15th) on board the Tai Shun for the South.

He will call on Sir Frederick Lugard at Hongkong before proceeding to Canton.

SHUM CHUN HSEN.

Candidate for Liangkang Viceroyalty.

(Chinese Mail's Service.)

PEKING, September 15.

Yuan Shih Kai has recommended to the Throne that Shum Chun Hsen be appointed Viceroy of the Liangkang Provinces.

The recommendation meets with the warm support of Prince Ching.

THE RIOTS IN VANCOUVER.

Representations at Peking.

(Chinese Mail's Service.)

PEKING, September 15.

In reply to representations from the Chinese Foreign Office regarding the

Anti-Oriental riot in Vancouver, the British Minister is reported to have stated that a telegram has been despatched to the Home Government requesting the best protection to be afforded to Chinese in the vicinity.

(Reuters Service.)

LONDON, September 14.

The Montague proceeded from Vancouver to Victoria, where the Japanese were landed. The steamer then returned to Vancouver to land the Hindoos, but the steamship officials, owing to the enormous crowds ordered the Hindoos back to the ship.

Nineteen of the Vancouver rioters have been committed for trial.

(N.C. Daily News Service.)

ATTITUDE AT TOKYO.

Tokyo, September 11.

Pending authentic details the official attitude of the Japanese Government has not been definitely intimated. Regret is widely expressed and it is hoped that ample protection will be given, but the British Authorities are not blamed.

Only two Tokyo papers comment upon the situation editorially, and their articles express a calm confidence that Sir Wilfrid Laurier's statesmanship will guarantee proper steps being taken in order that Japanese prestige should be restored, and that compensation will be made for the damages which have occurred. Nothing more is suggested.

THE STRANDING OF THE STANDART.

LONDON, September 14.

The St. Petersburg press attacks the Naval Administration for the stranding of the Standart; the "Slovo" declaring that the incident is worse than Tashkent, and stigmatises the ignorance of Home Waters as criminal.

As the result of a fire which occurred in the stockhold of the destroyer Spitfire, at Portsmouth, while making steam, two of the crew were killed and two others injured.

THE TYPHOON.

DAMAGE AT MACAO.

(From a Correspondent.)

MACAO, September 16.

No such typhoon has been experienced here since 1874.

A steamer is ashore and many junks have been sunk.

The typhoon which passed near the Colony on Friday night was felt in strength at Macao. The wind blew at terrific force and judging by the glass, it went down to 29.18, the centre of the storm could not have been far away. So concerned were the authorities that they fired the typhoon signals three times (nine guns in all). This was about nine o'clock at night, and shortly afterwards the wind was doing its worst.

Most of the shipping had been got ready for heavy weather but nevertheless there was anxiety on most craft and damage done on many. Several junks sank, but what loss of life, if there was any, has not yet been reported.

The new building sustained severe damage, a considerable amount of it being washed away. The Praya Grande, as usual, suffered heavily and many houses in the Colony were badly treated. It is reported that two or three collapsed but no definite news on this head could be obtained locally. Matched were rased to the ground, and trees were damaged or uprooted.

The electric light power station is reported to have been damaged to such an extent that full power could not be supplied on Saturday night, one of the dynamos being injured and many of the lines wrecked.

At the School House, Calçada do Gombom, Macao, the barometer registered as low as 29.14 at 5.15 a.m. All the windows of the residence of the Headmaster Mr. R. Alymer-Coates were smashed, the house completely flooded, and everything in the bedroom, dressing-room and dining-room, practically destroyed. At 5.10 a.m. the wind became so furious and the house so trembled, that it was necessary for the occupants to move downstairs for safety.

Mr. Coates was scarcely out of the room, carrying a mattress in his arms, when the large bed-room window was blown out and carried up the street about 40 feet, frame, shutters and all being dashed to pieces. Owing to the mosquito net and cover acting as a balloon, the net previously occupied by Mrs. Coates was thrown against the window, being only saved from the street by reason of its great length. The barometer remained steady until a quarter to six, and then rose; point by point, until 12 noon on the 14th when it stood at 29.49 inches.

In the Chinese part of the city two houses were blown down, killing four men and disabling six. Wherever buildings were in process of construction, not a stick of the scaffolding or an atom of the building remained intact. It will take some time before the electric fighting company repair the damage done by this gale. The wires are trailing the streets in all directions. Mr. Ricou will have his hands more than full for the next couple of weeks.

Owing to the damage done to the school house, the school which opened on the 10th, will be closed until Monday, the 30th instant.

DAMAGE IN HONGKONG.

The loss of life occasioned by the storm was not heavy, though it is considered that over a dozen Chinese have been drowned. At Hung Hom Bay five Chinese are reported to be missing. They were on cement lighters which sank during the storm, and it is probable that they have been drowned.

At Causeway Bay a woman lost her life. She had gained the shelter of the typhoon anchorage and had moored her sampan close to where the nullah from the hills entered the harbour. During Friday night the sampan began to drag from the mooring and the woman got up to make her exit safe. The occupant of an adjoining sampan saw the woman walking about and spoke to her at about 4 a.m. on Saturday morning and about two hours later he was awakened by the sound of a loud crying.

Seeing that the noise emanated from the sampan close by he asked the boy what was the matter and was informed that the boy's mother had disappeared. Though a search was made no trace of the woman was found and was sent to her husband, who is employed on one of the Dock Company's launches. Meanwhile the search was continued, and finally the woman's dead body was found lying face downwards in about a foot of water. She had evidently been blown from her sampan and stunned and her body had drifted away. Her husband stated that there was no reason why she should commit suicide and supported the theory that she had fallen overboard.

Another death occurred at Quarry Bay. Two brothers were making their way along the train line when the storm was at its height, and a broken telephone wire fell across the overhead train wire. The swinging end struck one of the men on the chest, administering a severe electric shock. In endeavouring to escape from the wire the man seized his wife with both hands and was held in its grip. His brother tried to free him, but also received a shock and before assistance arrived the man who was first struck was dead; being buried about the chest, hands, and legs.

The residents of Tai Hang village had an exciting time. A portion of the large nullah which runs past Tai Hang village from the washing tanks well up the hill was choked by the collapse of a portion of the retaining walls of the tanks and the water, unable to continue its accustomed route, overflowed the sides of the nullah and swept

down upon the village. The Tai Hang village might be divided into two sections, the upper and lower, for one portion of the village is some three or four feet higher than the other. The water swept through the upper portion of the village and flooded the lower section. Inspector Gourlay's men were soon on the scene and removed all the children to the surrounding hillsides and opened the pig-pens, in order to prevent the animals from being drowned. They worked so expeditiously and received so much assistance from the villagers that all the children and animals were removed to the higher levels before the flood reached its highest point. It was well that this was so, for within an hour of the overflow a portion of the village was flooded to a depth of six feet, while other portions were from two to six feet under water.

A structure, which is well-known to our older residents, collapsed during the storm—the old "General's House" situated in Queen's Road East, near Spring Gardens. This house, adjoining the old Government House, is said to have been the first permanent building erected for the accommodation of the first General Officer Commanding in the Colony. The whole back portion of the house came down on Saturday and the front wall in Queen's Road cracked ominously. So precarious did it seem that the Public Works Department lost no time in getting workmen to shore it up. Fortunately the building was not occupied at the time of the collapse and no lives were lost there.

Another building, a godown at 132 Praya East, also collapsed, and by falling into Russell Street obstructed the tram line and broke several telephone wires. A telephone pole was also broken down. The remaining portions of the godown were shored up promptly.

Two houses in Tank Lane also suffered. The whole of the front wall of No. 9 and portion of the front wall of No. 7 fell into the street, but no lives were lost.

In Blake Garden a number of trees were blown down, and in different portions of the city the roads were more or less damaged. The sailing ships in the harbour stood the storm well. The Lyndhurst dragged her mooring and drifted westwards but pulled up when a couple of hundred yards west of the Alcides. Neither the Alcides nor the King George altered their positions much, both having two anchors down, as did the Lyndhurst, but the latter's anchors are not very heavy ones.

The dredger used at Leichikot drifted ashore on Chungshue Island but she was got off this morning. It is said she is not much damaged.

A lighter belonging to Messrs Jardine, Matheson and Company went ashore and two junks laden with blue stone foundered at Mongkokkai.

The river steamer Kwang Fat under repairs at Kwong Tai Ching's establishment went on a rock at Hung Hom.

Three lighters belonging to the Godown Company went ashore and two grounded at Stonecutters; the damage was slight.

The German steamer Nicomedie dragged her buoy about four hundred yards into the Central Fairway.

Several junks were in collision in the anchorages and were slightly damaged.

The Ghazee's Flight.

The British steamer Ghazee (Capt. Dacode) from Keelung with a general cargo was badly buffeted by the typhoon on Friday night. Close to Hongkong the storm was encountered at its full height and during the combined efforts of the hurricane and high seas, the steam steering gear carried away and the steamer almost got out of hand, with cables were quickly attached to the rudder, however, and, worked by the strain winches, the steamer was got under control and brought into port. During the storm all the officers and crew were on duty but they were powerless to prevent the ravages of wind and wave. Hatchways were broken open and water poured into the holds, and there was always a danger of some of the heavy gear carrying away. The second officer had a nasty experience, being jammed against the mast for a considerable time, whilst the first officer had one of his fingers badly injured.

The Ohsang's Story.

The Indo-China s.s. Ohsang (Capt. Cox), during the typhoon, was lying under the lee of the Ladrone Islands, about a mile west of the south end of Pulo, where he anchored at 4.30 p.m. on Friday, 13th inst. The wind then blew a gale from North by East. At nine o'clock the barometer fell rapidly and the wind increased to hurricane force from the East. By 3 a.m. the noise of the wind was so great that even behind shelter it was impossible to hear conversation, though carried on in shouting voices. The first and second officers, who had been through the gale, September typhoon of last year, declared the force of the wind on that occasion was as nothing to what they experienced on Friday night and Saturday morning last. The lowest reading of the barometer was taken at 3.30 p.m., it then registered 28.90. For two hours after this it was impossible to get a light and see the barometer, so no one knows how low it actually fell. At half past five in the morning when they could see it again it had risen to 29.15. The height of the storm was reached about 4 a.m. The Ohsang was well loaded and had three bow anchors down, nevertheless she dragged her moorings for over a mile in a West-north-westerly direction, away from the shore. Fortunately there was not much sea as she was under the lee of the land, consequently she suffered only minor damage.

The Chihli.

The B. and S. steamer Chihli (Capt. Warnick) from Haiphong via Hallow, encountered the typhoon on the 14th and thrashed through the raging seas as far as St. John's Islands. The wind was increasing every hour and the captain decided to shelter under the islands. The barometer registered 29.04, and the wind raged at hurricane force from 8 to 11 p.m. Gap Rock light was not visible within the usual range of clear weather.

Ship Reports.

The Yuen Sang which arrived in port from Manila this morning reports "fine weather throughout."

The French Mail steamer Tourane, which came in at 7 a.m. to-day, did not have any weather experiences. She left Wessing on September 14 and had fine weather down the coast.

The Katsang arrived from Singapore yesterday but did not see anything of the typhoon, having moderate winds and general fine weather throughout.

The Shanghai from Shanghai arrived yesterday after experiencing from Lamock to port strong wind to moderate gale, with high, confused and blinding squalls of wind and rain.

The Kansu from Wuhu had moderate to fresh S.E. winds and very heavy squalls all the way, the latter part of the voyage being in very heavy rain squalls.

The Fukuoka Maru from Amoy had had heavy swell and squally weather to go through.

The British steamer Zoroaster from Christmas Island with a cargo of phosphate rock entered the southern limit of the typhoon 70 miles South of Hongkong at midnight on Friday last. Otherwise the voyage was one of light moon and fine weather.

THE HARBOUR RACE.

The Harbour Race for China Mail models was won this afternoon by

A. E. Thomas 1
C. Cooke 2
A. Barros 3
Time 28.50½

A MIDNIGHT FIRE.

Between midnight and one o'clock this morning a fire was discovered in a shop at 180 Wing Lok Street, near Market Street. When the alarm was given the fire was burning fiercely and, despite the torrential rain which fell at the time, soon demolished the entire interior of the building. The contents of the shop were totally destroyed. The cloth goods were insured to the extent of \$10,000, but those on the ground floor were uninsured.

A THIEF'S MISFORTUNE.

Visitors at the Magistracy this morning witnessed the unique sight of a constable (Wheeler Fox) carrying a prisoner into Court and later into gaol. It seems that on the 10th of the present month a thief broke into a house in Aberdeen Street and after securing a bundle of pongee silk clothing prepared to take his departure.

A woman in the house, however, was aroused by the noise he made and gave the alarm. The man rushed out on to the verandah and in endeavouring to escape fell to the street, sustaining injuries to both his legs.

He was arrested and taken to the hospital where he remained until Saturday. This morning he was carried into Court and Mr. C. D. Melbourne sentenced him to three weeks' imprisonment with hard labour, remarking that the doctor said he would be alright in another week.

SPORTING.

Lawn Bowls.

The distinctly unfavourable weather on Saturday prevented the proposed International bowling match from taking place at the Police ground, Happy Valley. The match will now be played on Wednesday, and on Saturday next the English team will try conclusions with the Scotch. The English are keen on their chances, but the followers of the thistle smile complacently when asked about their prospects.

WEATHER REPORT.

The following notice is issued by Mr. Figg of the Hongkong Observatory—

On the 16th at 12.35 p.m.—The barometer has risen a little in the neighbourhood of Hongkong and fallen slightly over the Philippines, Formosa and the E. coast of China. The depression over the Pacific is a typhoon. This morning it appears to be situated to the East of North Luzon, and to be moving towards N. W. or W. N. W. The Japanese returns are, however, not yet to hand.

The high pressure is probably lying over the N. part of the Sea of Japan. The N. E. winds are expected to freshen in the Formosa Channel, and E. backing to N. winds will probably prevail over the N. part of the China Sea. The Hongkong rainfall for the 24 hours ending at 10 a.m. to-day 5.55 inches. Forecast for the 24 hours ending at noon to-morrow.

Forecast District.
1.—Hongkong and Neighbourhood: E. to N.E. winds, moderate; fair.
2.—Formosa Channel: N.E. winds, freshening.
3.—South coast of China between Hongkong and Lamook: Same as No. 1.
4.—South coast of China between Hongkong and Hainan: S.E. to E. winds, moderate.

CHAMBERLAIN'S COUGH REMEDY. THIS is a medicine of great worth and merit. Try it when you have a cough or cold, and you are certain to be pleased with the quick relief which it affords. It is pleasant to take and can always be depended upon. For sale by all chemists and storekeepers.

THE TRADE OF AMOY.

(From Our Correspondent.)

Amoy, September 11.

A survey of the trade of the port for the second quarter of the year, from April to end of June, does not bear out the fears of many that the trade is rapidly decreasing. Indeed, as compared with the same period last year it shows a slight increase both in quantity and in value. In shipping, entered and cleared, there is a diminution in the number of steamers amounting to 15 per cent, but an increase in the tonnage of 16 per cent, a total of 1382 vessels and a tonnage of 824,347 tons.

Among imports, opium is less than last year, while cotton and woolen goods are considerably more. Metals and most foreign goods show an increase, which is phenomenal in the case of rice and oil. No less than 239,365 piculs of rice were imported, twice the amount of last year's figures, and far above the average; while as much as 708,960 gals. of American oil, 188,730 gals. of Borneo; and 375,050 of Sumatra entered the port in the three months, an increase of 60 per cent over last year, a total of over one million gallons.

As to exports, the total is well in advance of last year, but by no means up to the totals of 1904 or 1905. The influence of the boycott has practically passed away. As regards the passenger traffic to and from the Straits, there is still a marked difference between those leaving the port and those returning, showing that the drain upon the inland districts, whereby such large numbers of the younger and more able-bodied men drift away from the land, is not yet diminished to any great extent. About 30,000 left, but only 11,000 came back, during the three months.

The many steam launches travelling to the various inland towns, reachable by water, carried a very large number of passengers, as many as 150,000, counting to and fro, showing that the Chinese have taken very kindly to this newer mode of travel, so much quicker and more comfortable than the old way of travelling by junks and passage boats.

The total revenue for the quarter is in advance of both 1906 and 1905, being as much as Hk. Tls. 204,022.

Of course the tea trade is dying out; this was to be expected now that the Japanese have improved the harbour accommodation in Formosa, so that big ocean steamers can enter the northern harbours of Keelung, Tamsui. Unfortunately, no other important article of commerce has arisen to take its place, and were it not for the trade with the Straits, it is difficult to see what would prevent Amoy decaying into a very inferior port.

Whether the new railway and the opening up of mines will restore a measure of prosperity remains to be seen.

EXPORTS AND IMPORTS.

The following are the principal imports for the first week of September. Rice, 22,400 piculs; flour, 11,027 piculs; wheat, 7610 piculs; beans, 13,920 piculs; beans and peas, 37,242 piculs; mats of tea, 8000 piculs; cotton goods, 5451 piculs, with 760 piculs of raw cotton. Also 10,995 gals. of Sumatra oil in bulk. On Sept. 9th, two oil steamers entered the port, the s.s. Prudentia, 1770 tons, and the Standard Oil Co.'s s.s. Banquette, 6400 tons, this latter boat direct from New York. These two vessels are now engaged in unloading their cargo, the full extent of which will be known latter.

Among exports were 18,000 piculs of sugar and sugar-candy; 6000 hemp bags and 3000 piculs of paper; and 441 piculs of prepared tobacco.

AGREEABLY SURPRISED.

MANY sufferers from rheumatism have been agreeably surprised at the prompt relief afforded by applying Chamberlain's Pain Balm. For sale by all chemists and storekeepers.

A LONG- FELT - WANT SUPPLIED.

A NEW ISLAND.

Claimed by Japan.

A Tokyo message states that Saizawa Kichiji, who is engaged in the South Sea trade, has discovered an island in Lat. 20° 42' 3" N., Long 110° 42' 14", between Macao and the Philippines. The island is said to be about 16 miles in circumference and uninhabited. The island is reported to contain much sulphur and shells and to be well wooded. There are numerous birds on it and the adjacent waters abound with fish. He has named it Saizawa Island and a shoal near it Saizawa Shoal. He has hoisted a Japanese flag on the island.

YACHT FOR THE PHILIPPINES.

The yacht Wright for the Governor General of the Philippines has been undergoing renovations in Singapore and is expected to leave for Manila to-day.

It was the intention of the Army authorities to make the Wright into a first-class yacht, for the use of the Governor-General of the Philippines. The officers' cabins on the upper deck have been made into one large cabin for the use of His Excellency, the officers being moved to the deck below, save the Captain whose cabin stands between the wheelhouse and the cabin of the Governor-General.

The balance of the large upper deck is open and seated with easy chairs. It makes a very large promenade deck for so small a vessel as the Wright, being as wide as the widest part of the steamer and about half its full length. The Governor-General's cabin has its own bathroom adjoining, with porcelain fittings. The cabin is fitted with furniture from Singapore none of which, excepting a fine brass bedstead, is not visible. The upper deck has a flooring of tarred canvas instead of planks. The steamer is being fitted with electric light and modern sanitary and other appliances, but it is not comparable with the Sea Mew for the purpose for which these vessels are designed, nor is it to be compared with the Sea Mew, which was long used as a yacht for the Philippine Governor-General. Two new Scotch boilers have been installed in place of the three old American boilers.

The lower deck is decidedly crowded. The officers' cabins are small and insufficiently ventilated, while the passage-way outside is extremely narrow. The whole vessel is, however, being put into excellent shape, and will be made as neat and comfortable as its size and style of construction will permit. It was originally intended to spend \$32,000, American currency, on the vessel, but this was later increased by \$15,000, Singapore currency, making the total amount expended about \$47,000.
